PROVEN IN PRODUCTION

“WELCOME to ADDISON SAWS and our sister company DYNASHAPE - the UK's leading names in sawing, cutting, processing and re-sharpening technologies. Established in 1956 (Addison Saws) and 1961 (Dynashape) together we have built an enviable reputation for offering 'PROVEN' products and services from trusted world leading brands that have enabled manufacturer's to be faster, increasingly efficient and more cost-effective in their production process.

Together we are a 'total solution' provider, proven to generate significant cost savings, year on year.

Sound customer service is very much at the heart of our companies ethos and we pride ourselves on offering a consultative service which advises on the best products and services for your specific application. In addition our trained service engineers and area managers are on hand to offer their advice, expertise and time served knowledge on our extensive range of machinery, blades, lubricants and re-sharpening service.

We look forward to hearing from you soon.

SAWBLADE RE-SHARPENING & TOOLING SERVICE
(see page 28)

With over 60 years experience in metal cutting machinery, our team of experienced service engineers are based all over the UK and their goal is to simply keep your production line up and running.

In fact to further our commitment to excellent customer service we have added three additional highly experienced engineers to our team making the total of 16 service personnel ready to attend to your service needs.

We offer three ways in which to help, firstly our **Preventative Maintenance Agreement (PMA)** which is designed to offer scheduled visits per annum as the manufacturer intended, to access, adjust, replace equipment, ensure consistent performance and report on any additional work that needs to be done in order to minimise the risk of machine failure. Secondly, through our rapid breakdown service which ensures an engineer will be with you within industry leading response times together with the necessary parts and thirdly, through our extensive stock of spare parts available for collection or next day delivery.

‘...whatever your service needs, we work hard to find solutions, FAST.

SAWBLADE RE-SHARPENING & TOOLING SERVICE

01384 264 954

Let us introduce you to our sister company - **DYNASHAPE** - who are the UK's most experienced saw blade service and re-sharpening specialist. With over 57 years of expertise behind them, Dynashape is easily recognised across the UK for their uncompromising saw blade servicing and refurbishing capabilities. Using the very best CNC sawblade production technologies, including 4 robot loaded machines for lights out production which reduce costs whilst maintaining optimum, guaranteed performance, Dynashape is totally committed to offering specialist services that has been proven to generate substantial year on year savings. Instead of just 'sharpening' blunt blades Dynashape's approach is to '**refurbish**' them using advanced 4,5 and 6 axis high precision CNC machinery that refurbishes each tooth from all angles to produce a blade that will perform at 100% for the majority of it's working life. **...for blades that need sharpening, call us!**

Just one of the **TEN** specialised blade re-manufacturing units on site

TOOLING & REPAIR SERVICE

customised tooling, **DESIGNED BY YOU**,
manufactured to your
EXACT SPECIFICATION by us

- PROVEN TO SAVE YOU MONEY
- SAVE ON NEW BLADE COSTS
- HIGHER PRODUCTIVITY

IN ADDITION WE OFFER A BESPOKE **CONSULTANCY SERVICE**
we can streamline your process, **INCREASE YOUR PRODUCTIVITY**, save you money!

"... Dynashape has saved VOESTALPINE - METSEC PLC upto £2000 per month on the cost of new blades through using their re-sharpening service. The service also benefits and offers similar savings to many other forward thinking producers.

CALL US TO SEE HOW YOU CAN BENEFIT FROM YEAR END COST SAVINGS

Addison Saws is a 'total solutions' provider - one that has been proven to generate substantial year on year savings. We have the combined expertise to maximise on your production efficiency and deliver on those all important cost savings when you combine our services. So, why not consider a change - allow us the opportunity to work closely with you to show what improvements we can make that will benefit your production process. It might take a little time for these savings to appear but so far we have a 100% record in providing year end cost savings, resulting in rapid growth for our customers.

'With the genuine guarantee that we can save you money... it really does pay to put all your eggs into **OUR** basket.'

STEEL SAWS - CIRCULAR & BAND

SCISSOR ACTION BANDSAWS

- ✓ Manual & Gravity Fed Bandsaws
- ✓ Semi-Auto Scissor Action Bandsaws
- ✓ Automatic Horizontal Bandsaws
- ✓ Automatic Manual Mitre Bandsaws
- ✓ Automatic Powered Mitre

TWIN COLUMN BANDSAWS

- ✓ Semi-Auto Fixed Head
- ✓ Semi-Auto Swing Head
- ✓ Automatic
- ✓ Automatic with Mitre

CIRCULAR SAWS

- ✓ Manual Cold Saws
- ✓ Semi-Auto Cold Saws
- ✓ Automatic Cold Saws
- ✓ Double Mitre Cold Saws
- ✓ Rising Blade Cold Saws
- ✓ High Speed Billet Sawing

VERTICAL BANDSAWS

- ✓ Block & Plate
- ✓ Workshop
- ✓ Tilt Frame Semi-Auto
- ✓ Tilt Frame Automatic

ALUMINIUM SAWS & MACHINING CENTRES

SAWS

- ✓ Single Head Manual
- ✓ Single Head Semi-Auto
- ✓ Double Mitre Saws
- ✓ Compound Mitre Saws
- ✓ Automatic
- ✓ Vertical V Notch
- ✓ Notching Saws
- ✓ Automated Systems

CNC MACHINING CENTRES

- ✓ 3 Axis CNC
- ✓ 3 + 1 Axis CNC
- ✓ 4 Axis CNC
- ✓ 5 Axis CNC

FABRICATION MACHINES

- ✓ Copy Routers
- ✓ End Millers
- ✓ Corner Crimpers
- ✓ Punching Systems

GENERAL FABRICATION MACHINERY

- ✓ Ironworkers
- ✓ Punching Machines
- ✓ Non-Mandrel Bending Machinery
- ✓ Ring Rolling Machinery
- ✓ Horizontal Presses
- ✓ Plasma Cutters
- ✓ Pillar Drills

SAWBLADES & LUBRICANTS

CIRCULAR & BANDSAW BLADES

- ✓ HSS Blades & Slitting Saws
